

## Hosted and Subscription Solutions

### On-Demand Assessment Management System Frees You to Focus on Results

#### Overview

Questionmark Hosted and Subscription Solutions provide you with the comprehensive assessment authoring, scheduling, delivery and reporting capabilities of Questionmark Perception -- all without worrying about hardware purchases, upgrades, and maintenance expenses.

- Run one-off or short-term assessment projects
- Rapidly deploy assessments without worrying about the hardware
- Enjoy high availability, reliability, and scalability
- Gain access to expert and experienced support staff
- Run assessments in a secure environment
- Start small, with plenty of room to grow
- Always have the latest version

With Questionmark's Hosted and Subscription Solutions, you won't need to worry about the technology. You'll be focused on getting results.

#### State-of-the-Art Infrastructure, Peace-of-Mind

Questionmark's infrastructure provides a reliable and scalable platform for running assessment solutions. Questionmark manages the Internet connectivity, air-conditioning, security, load balancing, availability, monitoring, database management, storage management, database backups, capacity planning, and more, so that you can focus on managing your assessments. Questionmark's hosting environment is located in a state-of-the-art data center with SAS 70 Type II certification. The SAS70 Type II certification is one of the most stringent auditing standards for service companies, verifying that the providers delivers fully secure, reliable, effective operating environments with the proper controls for conducting high availability IT and Internet operations. Third party auditors conduct annually the SAS70 Type II audit, which requires meticulous reviews and tests of the data center's operational procedures and controls. The facility is equipped with: N+1 redundant Uninterruptible Power Supply (UPS) units and generators that protect all systems from power surges and power outages; and an N+1 redundant air conditioning system that maintains a constant 65 degrees F, 18.3 degrees C, for the safe and suitable operation of servers.

#### Subscription Solutions

Questionmark's Subscription Service provides an ideal solution for organizations looking to combine rapid deployment, and simplified pricing with the flexibility to choose between "pay-as-you-go" pricing an annual contract. If you plan on delivering fewer than 750 assessments per month, Questionmark's Subscription Service is a great way to get up and running quickly with Perception's broad range of authoring, scheduling, delivery and reporting capabilities. Get started today with comprehensive assessment management system -- with no software or hardware buy!

#### Hosted Solutions

The Questionmark hosted solutions provided a robust platform that enables you to rapidly deploy your Assessment Management System without setting up hardware, Internet connections, and databases, or worrying about system configurations. Questionmark hosting enables you to create and run assessments online, schedule and manage users, and view comprehensive reports on your assessment results quickly and easily in a trustworthy, scalable and configurable environment.

- **Basic Hosting** includes everything you need to get your assessment program up-and-running in no time. Your plan comes with the option to either rent a Perception license if you have only short-term needs, or purchase a perpetual license for a longer term use.
- **Enterprise Hosting** is a more powerful solution for organizations seeking to extend and build upon the benefits that come with Basic Hosting. With Enterprise Hosting, you can integrate Perception with other systems, take advantage of Questionmark's Results Management System, personalize the URL of your system and customize the look-and-feel of log-in pages. For added peace-of-mind, Enterprise Hosting includes a service level agreement.
