

Workday Partner

Seamless integration between Workday Learning and Questionmark's assessment platform enables HR and learning professionals to leverage key features like collaborative authoring, secure delivery and in-depth psychometric reporting capabilities. In doing so, users can be assured their pre- and post-hire assessments are valid and reliable for sound and defensible personnel decisions.

When integrated with Questionmark, Workday Learning customers can benefit from powerful question and assessment authoring, delivery and reporting features. Assessments created in Questionmark can be scheduled via Workday Learning, providing learners with a seamless experience.

✓ **Improve performance**

✓ **Meet compliance**

✓ **Unlock potential**

Key Features

- Collaborative, secure authoring of surveys, quizzes, test, exams and observational assessments
- Secure content delivery with locked-down browser to reduce the risk of cheating and content theft
- Live online, record & review and onsite proctoring options to protect integrity of assessments
- Blended assessment delivery methods to support a broad range of devices and security needs
- Electronic or printing and scanning delivery options for online or paper-and-pencil assessments
- Reporting and analytics including item analysis reports, question statistics and much more
