

Instant Translate

The **award-winning** translation tool for **non-native speakers**

Explore how Instant Translate, winner of the 2022 ITCC Innovation Award, improves assessments for test takers and organizations alike with advanced machine translations that happen right on screen and in-test.

7,100+

Languages are spoken globally

Numberous tests and assessments
are taken in a non-native language

Recent estimations claim that
43% of the world is bilingual
and **17%** is multilingual

Numberous tests and assessments are taken in a
non-native language

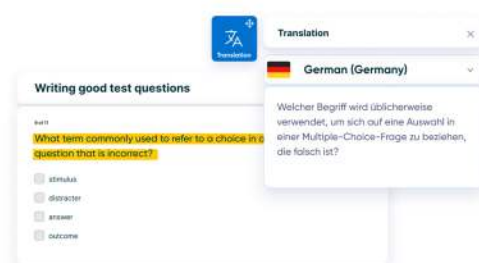

Flexible and available in

21
languages

With instant Translate from Questionmark,
test-takers can get instant, on screen and
in-assessment translations by

simply highlighting the text

they need translating.

Enabling test-takers to translate a question,
or parts of a question, in order to sense
check their understanding is a useful way of
making assessments more accessible.
