

Certified Installation

Ensure a timely, smooth and successful deployment of your assessment management system

Expert Guidance

Available for:

Questionmark Perception

Questionmark Connectors

Overview

Certified Installation, a Perception deployment verified to be appropriate for the environment by Questionmark's Technical Support Team, helps ensure a timely, smooth and successful deployment of your assessment management system.

Certified Installation is available for:

- Installation of Questionmark Perception
- Installation of Connectors for integration of Questionmark Perception with other systems

Options

- Collaboration Certification: Work with a Questionmark Technician to go through a planned and orderly process of installation and configuration, a service that delivered in four defined steps:
 - Kick-off
 - Discovery
 - Installation
 - Acceptance and Communications
- Certification by Inspection After Installation: Grant access to a Questionmark Technician to check the settings and configuration of your installation

Benefits

- Expert guidance for rapid deployment of your assessment management system
- Ensures key stakeholders are informed and engaged in the deployment process
- Learn helpful tips and avoid common mistakes
- Documented installation plan that helps speed resolution of technical questions and inform stakeholders

More about Questionmark Consulting Services

Organizations that want to optimize their assessment programs and increase their relevance to the entire enterprise rely on Questionmark Consulting Services, which gives them the help of experts in systems integration, server installations, instructional design, analytics and psychometrics:
