

## Questionmark and the GDPR

The General Data Protection Regulation (GDPR) is a new European Union privacy law about processing personal data of individuals in the EU. If you are delivering assessments in the EU, you will need to comply with the GDPR even if your organization is based outside of the EU. Questionmark itself will be compliant with the GDPR, and this data sheet explains some of the ways we will help customers using Questionmark OnDemand and Questionmark OnPremise be compliant.

GDPR Compliance Measure	Questionmark follows?	How Questionmark helps:
Only process personal data on your instructions	<input checked="" type="checkbox"/>	Questionmark is a data processor under the GDPR. Personal data is only used for operating the service and we erase personal data after you stop using the service. See our <a href="#">privacy policy</a> for more information.
Inform of and gets approval of sub-contractors/sub-processors	<input checked="" type="checkbox"/>	We disclose the small number of sub-processors we use, and if they change, we follow the GDPR procedure to obtain general authorization from customers.
Contract meets GDPR needs	<input checked="" type="checkbox"/>	All our standard contracts are GDPR compliant, and we'll look reasonably at any other contractual needs you have.
Strong security measures to protect personal data	<input checked="" type="checkbox"/>	Questionmark is ISO 27001 certified. See <a href="http://www.questionmark.com/trust">www.questionmark.com/trust</a> for details on our security.
Personal data outside the EU is protected	<input checked="" type="checkbox"/>	Questionmark is signed up to the EU-US Privacy Shield, has EU model clauses in place with sub-processors and will enter into EU model clauses with customers.
Help ensure personal data is accurate	<input checked="" type="checkbox"/>	Under the GDPR, controllers need to ensure personal data is accurate. For assessments, it's crucial that results are not only accurate but also valid, reliable and defensible. Questionmark products contain tools that empower customers to meet these objectives.
Deal appropriately with sensitive data	<input checked="" type="checkbox"/>	Questionmark doesn't require or default entering any sensitive or special categories of data, but can hold it if required.
Provide information to aid transparency notices to test-takers	<input checked="" type="checkbox"/>	See <a href="#">here</a> for personal information assessments typically capture and reach out to us with any questions you have.
Support for writing a Data Protection Impact Assessment (DPIA)	<input checked="" type="checkbox"/>	Questionmark has a template available to help customers write DPIAs, see <a href="http://www.questionmark.com/go/eu-od-dpiatemplate">www.questionmark.com/go/eu-od-dpiatemplate</a>
Personal data can be erased	<input checked="" type="checkbox"/>	Questionmark lets you erase data with the ability to permanently delete assessment results when required. Please raise any erasure needs with technical support.
Help answer access requests from data subjects	<input checked="" type="checkbox"/>	Questionmark has a comprehensive range of reports which allow you to respond to subject access requests
Inform promptly in event of a data breach	<input checked="" type="checkbox"/>	Questionmark has a regularly-tested incident response plan and puts customers on our breach notification list for rapid communication in the event of a breach.
Expert, reliable data processor	<input checked="" type="checkbox"/>	A Questionmark director (John Kleeman CIPP/E) leads Questionmark data protection and is our DPO. We train all our staff on data protection and the GDPR.
