

SOLABS

Training Compliance for the Life Sciences Industry

Overview

Questionmark and SOLABS have partnered to leverage their respective strengths in deploying innovative learning and assessment solutions for the Life Sciences industry.

About Questionmark

Questionmark provides a secure enterprise-grade assessment platform and professional services to leading organizations around the world, delivered with care and unequalled expertise. Its full-service online assessment tool and professional services help customers to improve their performance and meet their compliance requirements. Questionmark enables organizations to unlock their potential by delivering assessments which are valid, reliable, fair and defensible.

Questionmark offers secure powerful integration with other LMS, LRS and proctoring services making it easy to bring everything together in one place. Questionmark's cloud-based assessment management platform offers rapid deployment, scalability for high-volume test delivery, 24/7 support, and the peace-of-mind of secure, audited U.S., Australian and European-based data centers.

About SOLABS

SOLABS is dedicated to serving the needs of companies in the Life Sciences industry with SOLABS QM, its integrated Enterprise Quality Management System (EQMS) software that helps companies improve their operational efficiency and maintain GxP compliance by automating their Quality Operations with respect to FDA 21 CFR Part 11 and Annex 11. Their award-winning software allows companies to manage CAPA, Complaints, Controlled Documents, Change Control, and Audits, as well as Employee Training in a single user interface.

Organizations can start with a targeted scope by using only specific functional areas of the application and expanding to a completely integrated Enterprise Quality Management System over time.

SOLABS is dedicated to automating quality operations in the Life Sciences Industry. They understand the specific challenges faced by each sector of this industry, including Medical Device, Pharmaceutical Manufacturing, Biotech, Clinical Trials, and Research & Development.
